

UEB2

another (better) one!!

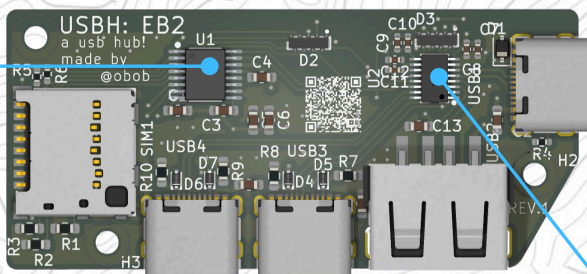

really cool frosted acrylic top!

2x USB-C and 1x USB-A

powered by the GL823K

Micro SD card slot!

running on the Core Chips SL2.1S

a custom USB 2.0 hub, featuring plenty of ports, alongside a really cool case with a **frosted** acrylic top!

made by @obob, 14 Australia

it uses the Core Chips SL2.1S as the main hub IC, a GL823K for SD card stuff, and plenty of esd protection (an important lesson to learn 🤔).

github!!
